The National Center on Institutions and Alternatives is a private non-profit organization dedicated to developing and promoting strategies and action toward reducing the number of people involuntarily institutionalized.

NCIA seeks to raise the national awareness around institutions and alternatives for institutionalized persons. Our goal is to stimulate support for creative and effective programs and to provide a forum for gathering and disseminating information about these issues.

NCIA has an abiding concern with juveniles and with justice system responses to youthful offenders. The following bibliography encompasses a wide spectrum of documents related to juvenile deinstitutionalization. Although the bibliography is selected, it is a comprehensive listing of sources that deal with the negative effects of institutionalization, the movement toward deinstitutionalization, and the establishment of community-based alternatives.

This project was supported by Grant No. 79-GS-AX-0003, awarded by the Law Enforcement Assistance Administration, U.S. Department of Justice, under Title II of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended. Points of view or opinions in this document are those of the National Center on Institutions and Alternatives and do not necessarily represent the official position of LEAA or the U.S. Department of Justice.
